IEG PI NOTICE

No. 19-77

TITLE/SIGNIFICANCE:

SECTIONS FOR SS-X-20 SLIDING-ROOF SINGLE-BAY GARAGES

COMMENT: The sections apparently are being fabricated at Bryansk Guided Missile Support Equipment Plant II. The building components identified included peak-roofed end sections, sliding-roof panel sections, building corner posts, and wall stanchions. A single-bay garage with a sliding-roof consists of two peak-roofed end sections, eight sliding-roof panel sections, four building corner posts, and six wall stanchions. So far they have been shipped by rail to four Soviet SRF missile complexes.
